MEDICAL FEE DISPUTE RESOLUTION FINDINGS AND DECISION

GENERAL INFORMATION

Requestor Name and Address

LAKE POINTE MEDICAL CENTER
PO BOX 1550
ROWLETT TX 75030

Respondent Name

TASB RISK MGMT FUND

Carrier's Austin Representative Box

Box Number 47

MFDR Tracking Number

M4-07-8186-01

REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "The discount taken by the payor far exceeds any discount currently provided to non-governmental payors for Lake Pointe Medical Center. Since there is no channeling ability of payors for workers compensation claims, it is expected by the facility to be reimbursed at 52% of billed charges which represents a 10% higher level than our standard [sic] managed care discount. Our additional expected reimbursement for our 52% of the billed charges is \$9,063.77."

Amount in Dispute: \$8,713.24

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "As no guidelines have been established by DWC for procedures done in the outpatient hospital other than rule 134.401(4) (item 1 listed above) stating they shall be reimbursed at a fair and reasonable rate. TASB has adopted a consistent application of 230% of Medicare allowable amounts based on surgical groups (item 4 listed above) as fair and reasonable. DWC has ruled (item 2 listed above) that 213.30% of Medicare fee schedules is fair and reasonable for ambulatory surgical centers. We feel our established allowance of 230% of Medicare's fee schedules is fair and reasonable for outpatient surgical services as those services are comparable to services provided by an ambulatory surgical center. Pre-surgical testing performed on April 18, 2007 was paid at a fair and reasonable rate separately from the amount allowed for the date of surgery."

Response Submitted by: TASB Risk Management Fund, PO Box 2010, Austin, TX 78768

SUMMARY OF FINDINGS

Date(s) of Service	Disputed Services	Amount In Dispute	Amount Due
April 18, 2007 April 20, 2007	Pre-surgical Testing & Outpatient Surgery	\$8,713.24	\$0.00

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.1 provides for fair and reasonable reimbursement of health care in the absence of an applicable fee guideline.
3. Texas Labor Code §413.011 sets forth provisions regarding reimbursement policies and guidelines.
4. This request for medical fee dispute resolution was received by the Division on August 20, 2007.
5. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - 97 – Payment is included in the allowance for another service/procedure.
 - W10 – No maximum allowable defined by fee guideline. Reimbursement made based on insurance carrier fair and reasonable reimbursement methodology.
 - W4 – No additional reimbursement allowed after review of appeal/reconsideration.
 - 143 – The disposition of this claim/service is pending further review.
 - 133 – Please submit invoice for additional consideration.
 - W3 – Additional payment made on appeal/reconsideration.

Findings

1. This dispute relates to services with reimbursement subject to the provisions of Texas Administrative Code §134.1, effective May 2, 2006, 31 *Texas Register* 3561, which requires that, in the absence of an applicable fee guideline, reimbursement for health care not provided through a workers' compensation health care network shall be made in accordance with subsection §134.1(d) which states that "Fair and reasonable reimbursement: (1) is consistent with the criteria of Labor Code §413.011; (2) ensures that similar procedures provided in similar circumstances receive similar reimbursement; and (3) is based on nationally recognized published studies, published Division medical dispute decisions, and values assigned for services involving similar work and resource commitments, if available."
2. Texas Labor Code §413.011(d) requires that fee guidelines must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. It further requires that the Division consider the increased security of payment afforded by the Act in establishing the fee guidelines.
3. 28 Texas Administrative Code §133.307(c)(2)(C), effective December 31, 2006, 31 *Texas Register* 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include "the form DWC-60 table listing the specific disputed health care and charges in the form and manner prescribed by the Division." Review of the Table of Disputed Services finds that no specific health care and charges were documented. The requestor has therefore failed to complete the required sections of the request in the form and manner prescribed under §133.307(c)(2)(C).
4. 28 Texas Administrative Code §133.307(c)(2)(F)(i), effective December 31, 2006, 31 *Texas Register* 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include a position statement of the disputed issue(s) that shall include "a description of the health care for which payment is in dispute." Review of the submitted documentation finds that the requestor has not provided a description of the health care for which payment is in dispute. The Division concludes that the requestor has not met the requirements of §133.307(c)(2)(F)(i).
5. 28 Texas Administrative Code §133.307(c)(2)(F)(iii), effective December 31, 2006, 31 *Texas Register* 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include a position statement of the disputed issue(s) that shall include "how the Labor Code, Division rules, and fee guidelines impact the disputed fee issues." Review of the submitted documentation finds that the requestor has not discussed how the Labor Code, Division rules and fee guidelines impact the disputed fee issues. The Division concludes that the requestor has not met the requirements of §133.307(c)(2)(F)(iii).
6. 28 Texas Administrative Code §133.307(c)(2)(F)(iv), effective December 31, 2006, 31 *Texas Register* 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include a position statement of the disputed issue(s) that shall include "how the submitted documentation supports the requestor position for each disputed fee issue." Review of the requestor's documentation finds that the requestor has not discussed how the submitted documentation supports the requestor position for each disputed fee issue. The Division concludes that the requestor has not met the requirements of

§133.307(c)(2)(F)(iv).

7. 28 Texas Administrative Code §133.307(c)(2)(G), effective December 31, 2006, 31 *Texas Register* 10314, applicable to disputes filed on or after January 15, 2007, requires the requestor to provide “documentation that discusses, demonstrates, and justifies that the amount being sought is a fair and reasonable rate of reimbursement in accordance with §134.1 of this title (relating to Medical Reimbursement) when the dispute involves health care for which the Division has not established a maximum allowable reimbursement (MAR), as applicable.” Review of the submitted documentation finds that:
- The requestor’s position statement asserts that “Since there is no channeling ability of payors for workers compensation claims, it is expected by the facility to be reimbursed at 52% of billed charges which represents a 10% higher level than our standard [sic] managed care discount.”
 - The requestor does not discuss or explain how 52% of the billed charges supports the requestor’s position that the amount sought is a fair and reasonable reimbursement for the services in this dispute.
 - The Division has previously found that a reimbursement methodology based upon payment of a percentage of a hospital’s billed charges does not produce an acceptable payment amount. This methodology was considered and rejected by the Division in the adoption preamble to the Division’s former *Acute Care Inpatient Hospital Fee Guideline*, which states at 22 *Texas Register* 6276 that:
“A discount from billed charges was another method of reimbursement which was considered. Again, this method was found unacceptable because it leaves the ultimate reimbursement in the control of the hospital, thus defeating the statutory objective of effective cost control and the statutory standard not to pay more than for similar treatment of an injured individual of an equivalent standard of living. It also provides no incentive to contain medical costs, would be administratively burdensome for the Commission and system participants, and would require additional Commission resources.”
Therefore, a reimbursement amount that is calculated based upon a percentage of a hospital’s billed charges cannot be favorably considered when no other data or documentation was submitted to support that the payment amount being sought is a fair and reasonable reimbursement for the services in dispute.
 - The requestor did not submit documentation to support that payment of the amount sought is a fair and reasonable rate of reimbursement for the services in this dispute.
 - The requestor did not submit nationally recognized published studies or documentation of values assigned for services involving similar work and resource commitments to support the requested reimbursement.
 - The requestor did not support that payment of the requested amount would satisfy the requirements of 28 Texas Administrative Code §134.1.

The request for additional reimbursement is not supported. Thorough review of the documentation submitted by the requestor finds that the requestor has not demonstrated or justified that payment of the amount sought would be a fair and reasonable rate of reimbursement for the services in dispute. Additional payment cannot be recommended.

Conclusion

The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation does not support the reimbursement amount sought by the requestor. The Division concludes that this dispute was not filed in the form and manner prescribed under Division rules at 28 Texas Administrative Code §133.307. The Division further concludes that the requestor failed to support its position that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the services in dispute.
